## CUSTOM DESIGN CENTER

We offer complete custom design services for bags and tissue paper. We can craft a bag to almost any imagination. From eurototes, non-woven, paper, and poly bags, we’ve done it all! Follow these steps to begin:

1) Determine the Bag Size and Features

Dimensions and features the client is looking for is imperative. We can create a bag in any size but knowing the intended use will make this process easier. Determine if your client needs any additional elements including closures, pockets, special handles, piping, etc.

2) Choose the Materials

We can build a bag using non-woven polypropylene, paper, or plastic based upon your clients needs and budget. We are also able to accommodate many different custom handles, from twisted paper, to ropes, ribbons, and plastic.

3) Prepare the Artwork

The artwork for the bag is by far the most important and will make the most impact. We accept art files in the forms of PDF, EPS, and AI Files. All files must be vector artwork. Please consult our general art guidelines [page 58 - 59] for more details.
