Goal

Cancer prevention has been associated with decreased rates of cancer incidence and increased survival. Despite this known fact, more effort and funds have been spent developing and implementing treatments for cancers rather than on research and development of cancer prevention modalities and strategies.

Our seminar seek to provide an avenue for bringing the academic researchers and the community providers who are all interested in cancer prevention together as first step in bridging the knowledge gap and to provide a means of disseminating research findings for practice application.

Educational Objectives

- Identify and assess major factors (lifestyle behaviors, nutrition, infections, sleep deprivation, physical inactivity) that contribute to cancer risk (*knowledge, competence, performance*);
- Describe and utilize various cancer testing and screening modalities to optimize patient care (*knowledge, competence, performance, patient outcomes*);
- Apply recent research and updates in cancer risk, early detection, and prevention in clinical practice to improve patient outcomes (*knowledge, competence, performance, patient outcomes*);
- Discuss the role of infections in cancer risk and the sue of vaccines in cancer prevention (*knowledge*)

Target Audience

- Physicians
- Physician Assistants
- Advanced Practice Registered Nurses
- Registered Nurses
- Students

Educational Methods

- Lectures • Case Presentation Including Interactive Audience Participation
- Question and Answer Sessions • Workshop

Evaluation

A course evaluation form will provide participants with the opportunity to comment on the value of the program content to their practice decisions, performance improvement activities, or possible impact on patient health status. Participants will also have the opportunity to comment on any perceived commercial bias in the presentations as well as to identify future educational topics.

Accreditation/Credit Designation

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of The University of Texas MD Anderson Cancer Center and the Africa Cancer Care, Inc. The University of Texas

MD Anderson Cancer Center is accredited by the ACCME to provide continuing medical education for physicians.

The University of Texas MD Anderson Cancer Center designates this live activity for a maximum of 16.25 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

AAPA accepts certificates of participation for educational activities certified for *AMA PRA Category 1 Credit™* from organizations accredited by ACCME or a recognized state medical society. Physician assistants may receive a maximum of 16.25 hours of Category I credit for completing this program

Nursing continuing education credit approved for this program is 16.33

Nursing credit is provided by the University of Texas MD Anderson Cancer Center, an approved provider of continuing nursing education by the Texas Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation

CME Certificates

Certificates awarding *AMA PRA Category 1 Credits™* or certificates documenting attendance will be distributed to participants when an individual departs the conference. To obtain a CME certificate, participants must submit a completed evaluation questionnaire and a *CME Verification Form*.

Upon request, a record of attendance (certificate) will be provided on-site to other health care professionals for requesting credits in accordance with state nursing boards, specialty societies, or other professional associations.
