

Accounting and Booking Services

As a small business owner, you're busy enough without having to handle your own books. We provide small businesses with custom accounting, tax and consulting services designed to meet your business needs. All of our services are scalable, which means you meet your business demands without having to increase your overhead by hiring an in-house bookkeeper. Our accounting services are designed to provide the financials necessary for tax minimization planning, profit maximization and business growth. If you are looking for a reliable accounting firm look no further. Call us today at **704-716-9352** to schedule a meeting to discuss your company's needs.

Pavilion Tax Service provides weekly, monthly, quarterly accounting, payroll book keeping services based on the size and scope of the business.

Accounting Journal Entries, Maintaining General Ledger

The general ledger is the core of financial records and constitutes the central "books" of your system. Pavilion Tax Service will review your general ledger system each month and fix any discrepancies such as double billings or any unrecorded payments.

Bank Statement Reconciliation, Cash Flow Analysis

Reconciling the business checking account each month helps keep the bank account, accounting, and taxes up-to-date. Pavilion Tax Service staff provides Cash Flow Analysis each month that will track down every expense and receivable.

Income Statement and Balance Sheet

Pavilion Tax Service based experts will prepare income statement and balance sheet to help determine the health of business, potential tax liability and financial strength of business. Balance sheet and income statement are the most basic elements in providing financial reporting to potential lenders such as banks, investors, vendors who are considering how much credit to grant you.
