For Discussion: “Climate Change” and God’s Judgment: Intersecting?

(raptureready.com; Dave Hubley October 2, 2024)
<https://www.raptureready.com/2024/10/02/climate-change-and-gods-judgment-intersecting-by-dave-hubley/>

Who is the most likely to be deceived by the lie of man-caused “climate change”?

People who reject God and His Word are the most susceptible to the lies of the globalist elite...

2 Corinthians 2:14 – *the natural man does not receive the things of the Spirit of God, for they are foolishness to him; nor can he know them, because they are spiritually discerned*

Why are we seeing so many extraordinary weather events being reported today?

The current epidemic of weather anomalies that are occurring worldwide is an undeniable sign that God is lifting His hand of safety and protection on His creation, and they bear a similarity to the judgment inflicted on the sin-besotted world recorded in Genesis 6, 7, and 8.

Why might God allow an increase in bad weather events?

For the spiritually discerning to recognize that we are close to the end of the Church Age:

Matthew 24:8 – *All these are the beginning of birth pains.*

God is removing His restraint of evil...

Luke 21:25 – *there will be signs in the sun, in the moon, and in the stars; and on the earth distress of nations, with perplexity, the sea and the waves roaring*

Also to reinforce the lie for those who believe that climate change is caused by man...

2 Thessalonians 2:11-12 – *God will send them strong delusion, that they should believe the lie, that they all may be condemned who did not believe the truth but had pleasure in unrighteousness*

The context of this refers to the lie explaining away the rapture but the broader principle here is that, as part of His judgment, God would make it easy for those who’ve rejected Him to embrace the deception of the Antichrist’s conspiracy.

How does the mainstream media advance the climate change narrative when reporting on the weather?

Mainstream media reports often contain snarky little warnings about this or that flood (or virtually ANY other weather anomaly) being caused by global warming or global cooling, with the demonic threat of climate change being the oh-so-obvious implication. They can’t resist it.

What agenda does the climate change narrative serve?

Revelation 13:3 – *All the world marveled and followed the beast*

All the world will come together to follow the Antichrist. Global warming is being used to push the world toward a global government. Global problems require global solutions so fixing climate change is a greater task than any one nation can take on by itself.

- Thus, all nations must set aside their sovereignty in the interests of the greater good. This means that rich nations like the U.S. will need to give up some of its economic power in the interest of “fairness” to be more of a team player in the world’s community of nations.
- Fixing global warming will be a tool used to “spread the wealth around” on a global scale. Ultimately such control over market economies will require a totalitarian global government to administer it, just in time for the Antichrist to take power.

The secret global warming agenda is all about taxing progress and taking freedom away from the public.

How will people be made to give up their freedoms for the sake of fixing climate change?

Most often, control of populations is brought about incrementally by instilling fear through various threats to life and limb, income, and the “normality” of everyday existence.

- This includes turning people against each other by whatever means necessary.

What is the prophetic significance of Marxist governments turning people against each other?

Matthew 24:10 – *many will be offended, will betray one another, and will hate one another*

Climate change deniers are represented as enemies of the people and thus should be hated. This division will be on steroids during the Tribulation.

Besides climate change, what other fears are percolating today?

Here in 2024, it includes fear of lockdowns, renewing fears of more lethal pestilences, financial disaster, unemployment, and the renewed threat of nuclear war with weapons that eclipse the technology of the 1960s.

- Then, the final ingredient that the globalists plan to use will be forceful imposition on what has become a helpless and fearful populace.

What makes unbelievers so easy to deceive?

Ephesians 2:14 – *that we should no longer be children, tossed to and fro and carried about with every wind of doctrine, by the trickery of men, in the cunning craftiness of deceitful plotting*

If you're not well grounded in the truth of God, you will be susceptible to the lies of men. And having an illogical mind is a consequence of rejecting God...

Romans 1:28 – *even as they did not like to retain God in their knowledge, God gave them over to a debased mind, to do those things which are not fitting*

Why shouldn't Christians be caught-up in the fear mongering of the globalist elite?

2 Timothy 1:7 – *For God has not given us a spirit of fear, but of power and of love and of a sound mind*

Christians have the opposite of a debased mind, we have a sound mind that considers eternal truth and sees through the fear-mongering of men.

Is it possible that the activities of men can impact the weather?

There are those who certainly think they can...

Flubbed climate test won't deter rich donors from altering the sky

They funded a failed experiment to block the sun. They plan to try again.

Media Uses Hurricane Helene to Promote “Global Warming” Agenda | ZeroHedge

Even as the death toll from Hurricane Helene continues to rise, pundits in the mainstream media are rushing to use the disaster as an excuse to promote their narrative that “global warming” is real.

Weather Warfare Uncovered: US Government's Secret Climate Control and Chemtrail Operations—Are We All Just Guinea Pigs

Official documents reveal that governments have been deliberately altering weather patterns using toxic chemicals and aerosols, leading to catastrophic environmental and health consequences while keeping the public in the dark. <https://rairfoundation.com/weather-warfare-uncovered-us-governments-secret-climate-control/>

Bill Gates' dark dream of blocking sunlight from the Earth is about to be realized – Leo Hohmann Tuesday, 20 February 2024

Bill Gates, ever the demented snake oil salesman, has long argued in favor of a bizarre plan to fight global warming by using experimental geoengineering to partially block the sun's rays from reaching Earth. Well, he's apparently about to get his wish.

Intense hailstorms hit UAE after cloud seeding operations

Heavy rain accompanied by lightning and intense hailstorms hit the city of Al Ain and other parts of UAE on the morning of February 12, 2024, causing impressive hail accumulations. This is reportedly the strongest hailstorm Al Ain has seen in 40 years. It comes after NMC conducted a series of cloud-seeding flights.

What could go wrong with mankind attempting to control the weather?

They are certainly polluting the earth inciting the judgment of God...

Isaiah 24:5 – *The earth is also defiled under its inhabitants, because they have transgressed the laws, changed the ordinance, broken the everlasting covenant.*

This polluting of the earth will reach its culmination during the Tribulation...

Revelation 11:18 – *You should... destroy those who destroy the earth*

This is not just pollution from wars, it is also pollution from trying to control the weather.

Even if men could do things to alter the weather, does this extend to changing the climate?

Colossians 1:17 – *He is before all things, and in Him all things consist.*

No, God is in control of our climate. It is arrogant to think that mankind is so powerful that we can change the climate of the earth.

- Humanists have a uniformitarian view of the world, “all things continue as they were from the beginning of creation” (2 Peter 3:4). Humanists don’t bother to consider that the ice ages prove we can have fluctuations in climate not caused by man.
- So, when the climate appears to be changing, they think the activities of mankind must surely be behind it. They have no concept of a personal God who intervenes in the affairs of man.

It doesn’t even cross humanist minds that God is behind the record weather events to give His faithful yet another sign that Jesus will soon return.

- The perception of changing climate also gives humanists one more reason to move toward an oppressive global government.

What is the spirit behind the climate change dogma?

Genesis 11:4 – *Come, let us build ourselves a city, and a tower whose top is in the heavens; let us make a name for ourselves*

It is a revival of the rebellious spirit behind the Tower of Babel. Being on the politically correct side of the global warming issue has become a litmus test for where a person stands on a whole collection of humanist issues.

- Solving the great global warming threat has become so urgent because this will be a great monument to human achievement.
- As people thought they could reach God at the Tower of Babel by coming together to pool their efforts, people today think they can achieve their own deliverance from the ravages of global warming by collective action.
- The hysteria over global warming is being whipped up to a religious fervor. Indeed, the idea that mankind is causing global warming is considered to be a fundamental truth that cannot be contradicted.

When will there actually be global warming?

2 Peter 3:7 – *The present heavens and earth are reserved for fire, being kept for the day of judgment and destruction of ungodly men. (NIV)*

The Bible says the earth will indeed experience global warming. Those with the global warming religion should fear what is coming because any of today’s mild global warming pales before the real global warming that God will send on the earth at the end of the Millennial Kingdom.

- This ultimate global warming is indeed caused by mankind as a consequence for turning away from God, not due to producing carbon dioxide.

What should we think of when we experience or hear of great stormy weather?

Isaiah 28:2 – *Behold, the Lord has a mighty and strong one, like a tempest of hail and a destroying storm, like a flood of mighty waters overflowing, who will bring them down to the earth with His hand*

When we see great storms, we witness the power of God. We often wonder why God brought such destruction upon us with a terrible storm but He may have sent it just to reset our priorities and refocus our attention on Him. As painful as a disaster from a great storm may be, God can use such an event for a greater good such as helping people grow closer to Him (Romans 8:28).

What applications do we see from this discussion?

- God is in control; extraordinary weather tells us the end of the Age is near
- The climate change narrative is being used to force people to accept an oppressive global government
- Mankind thinks they can be in the place of God in controlling the weather; what could go wrong?
