For Discussion: **The Final Countdown**
([zerohedge.com](https://www.zerohedge.com); October 19, 2024)

A dignified life, or dehumanized technocracy -- which would you prefer for your children?
<https://www.zerohedge.com/political/final-countdown>

Now that we are “back to normal,” it is instructive to reflect on the lessons learned from Covid (hindsight is 20/20).

What was memorable about the Covid Pandemic?

- It really wasn't as bad as the media represented it to be (about the same death rate as the flu) ...the hospitals were not overwhelmed.
- The PCR tests were notorious for false positives.
- Monetary incentives to report Covid deaths made death from any cause with Covid a Covid death.
- Covid protocols in hospitals killed patients.
- People generally believed the media responding with abject fear readily giving up their freedoms for the greater good.
- Any one questioning the official narrative was aggressively censored for the sake of the greater good.
- It was amazing how the governments of the whole world responded essentially the same.
- The mandates conditioned people for the Mark of the Beast... show your loyalty to the State with your obedience or you will not be permitted to buy or sell.

If Covid was a test to see how people would respond to a pandemic, how'd we do?

We wildly surpassed the expectations of the Luciferians who seek to enslave humanity. Fear is a powerful emotion that can be turned on at will by the governing authorities with the help of their faithful media propaganda.

- This powerful tool will be used again.
- The lack of resistance from the public, has set the stage for future abuses.

What is the lesson learned from Covid that brings Exodus 20:3 to mind?

Ex 20:3 – *You shall have no other gods before Me.*
Do Not Trust the Government — for many of those who do not know the Lord, the government is an idol.

- The government is their deliverer and they are willing to give up their freedoms to appease their idol, all for the greater good of course.
- Critical thinking is no longer encouraged or even permitted; good citizens just blindly go along with the official narrative (for the sake of the greater good)

What other occasions has the government worked against the interest of the people?

The Tuskegee Syphilis Experiment was treated as though it were something that happened a million years ago and would never happen again. It was medical torture that transpired over the course of 40 years and was presided over by the CDC (Yes — the same CDC).

- There has been a continuous barrage of psyops and wars, wars and psyops.
- The dubious nature of the 2020 election,
- the unanswered questions surrounding 9/11,
- the lies about WMDs that resulted in catastrophic war in Iraq,
- the total bailout of the banks in 2008 with not as much as a life-raft for the people
- How have we done with the Wars on Poverty, Drugs, and Terror?

What is the lesson learned from Covid that brings Proverbs 11:1 to mind?

Prov 11:1 – *Dishonest scales are an abomination to the Lord, but a just weight is His delight.*

Don't Trust Major Corporations, Especially Big Pharma aka Big Harma — Big industry from the military industrial complex to Big-Agra is thoroughly out of hand, but there's something particularly disturbing about the corruption of the pharmaceutical industry as it pertains immediately to our health.

- We should all be concerned that the oath stating, “first do no harm” has been jettisoned entirely.
- Giving legal indemnity to corporations is a recipe for disaster... The National Childhood Vaccine Injury Act of 1986 which gives liability protection to vaccine manufacturers needs to be overturned.

What is the problem with major corporations?

Big business is like big government... it exists to serve its own interests and not that of the people it should be serving.

- It distorts free-market capitalism as an instrument designed to maximize profit through ruthlessness, amoral means.
- Major corporations generally collude with government to produce regulations in their favor that squelch competition (Crony Capitalism)
- Private industry colluding with government is the very definition of fascism.
- Why don't we break-up major corporations as monopolies anymore?

What is the lesson learned from Covid that brings Proverbs 25:2 to mind?

Proverbs 25:2 – *It is the glory of God to conceal a matter, but the glory of kings is to search out a matter.*

The Right to Question — the right to question should be unquestionable. We claim to value education and up until recently intellectual curiosity was considered a good attribute.

- When Covid came along all the sudden “doing your own research” aka reading was suddenly being demonized.
- When were the censors ever the good guys in history?

What is the danger in censoring those questioning the authorities?

It totally does away with free speech. You don't have free speech if you are only allowed to parrot the official narrative.

- Questioning is good; robust dialogue is good.
- The notion of sterilizing mistakes or incorrect ideas out of discourse is totalitarian.

What is the lesson learned from Covid that brings Hebrews 10:24-25 to mind?

Hebrews 10:24-25 – *let us consider one another in order to stir up love and good works, not forsaking the assembling of ourselves together, as is the manner of some, but exhorting one another, and so much the more as you see the Day approaching.*

Freedom to Associate — the government has no right whatsoever to prevent us from seeing our families or friends when we are not engaged in criminal actions.

- the notion that they can protect us from a respiratory ailment by restricting our movements is not only blatant overreach, it's medically and scientifically without merit.
- The falsehood of the “asymptomatic carrier” was the fraudulent basis for movement restricting policies.

What is the lesson learned from Covid that brings Luke 12:2 to mind?

Luke 12:2 – *there is nothing covered that will not be revealed, nor hidden that will not be known.*

Freedom of Religion — The Christian worldview is what gave us the freedom of religion... the truth will eventually come to light so Christianity fares well in a free marketplace of ideas.

- Allowing liquor stores to remain open while churches were ordered closed, highlights the baseless and arbitrary nature of lockdown policies.
- Just prior to Covid, religious exemptions for vaccines required to attend school were overturned in New York and California. (Looking back, that was a red flag and helped set the stage for the bio security State that was about to emerge.)

How can the government decide that their rule is more powerful than any religious beliefs?

- They can't, that is why a new worldwide religion is one of the three pillars of the Antichrist along with a worldwide economy and government.
- These rulers have made themselves into idols.
- Religious exemptions should never be overturnable.

What is the lesson learned from Covid that brings Proverbs 19:2 to mind?

Proverbs 19:2 – *he sins who hastens with his feet.*

Haste Makes Waste — somehow this axiomatic principle was disregarded in the case of “Operation Warp Speed.”

- “Warp speed” implies mistakes.
- It implies lack of regulation and oversight.
- it means no long-term safety data.
- It means “safe and effective” is inherently a lie because they didn't have sufficient time to confirm its safety or effectiveness.

What is the problem with rushing to market a product people need?

It's mind numbing that supposedly intelligent people insist that such a massive undertaking as Operation Warp Speed could be executed without compromising quality, but then aggressively insult and gaslight those who raised this most obvious concern.

- Anyone who refused the experimental injections were accused of doing so based on conspiracy theories.

What is the lesson learned from Covid that brings 1 Corinthians 6:19 to mind?

1 Corinthians 6:19 – *do you not know that your body is the temple of the Holy Spirit*

Body Sovereignty — sovereignty over one’s own body is the most fundamental of fundamental rights... remember “my body, my choice”? It apparently doesn’t apply when the greater good is at stake.

- Mandating Covid “vaccines” was a violation of the Constitution, the Nuremberg Code and first and foremost natural law.
- No person should be forced to eat anything, watch anything, participate in anything — least of all an invasive medical procedure — against their will.

What is the lesson learned from Covid that brings Matthew 5:37 to mind?

Matt 5:37 – *let your ‘Yes’ be ‘Yes,’ and your ‘No,’ ‘No.’*

No means No — No is sacrosanct. We teach our children, that they always have the right to say No.

- If something doesn’t feel right — No.
 - If you don’t feel safe — No.
 - If you are asked to compromise your dignity — No.
- This principle, of always having the right to say No, does not have an expiration date. It’s not just for children. It is fundamental to human dignity.
- It is an abomination, that the right to say No was violated across the whole of society.

Will people remember these lessons learned for the next plandemic?

- Some will... mostly spiritually discerning Christians that are now very wise to this Luciferian strategy.
- But most will not... Covid was a very successful test of the use of fear to manipulate and control the masses.

What was the prophetic significance of Covid?

- Jesus said there would be pestilences among the birth pangs as a sign of His soon return (Matthew 24:7)
- Jesus said there would be great deceptions *so as to deceive, if possible, even the elect* (Matthew 24:24)
- Pharmakeia would be a problem during the Tribulation (Revelation 9:21, 18:23)
- The Covid mandates conditioned people to be more open to the Mark of the Beast (Revelation 13:16-17)
- The world’s response to Covid involved nations yielding sovereignty to the global authorities...
Revelation 17:13 – *These are of one mind, and they will give their power and authority to the beast.*

What applications do we see from this discussion?

- The Covid Plandemic reveals we are close to the end of the Church Age.
- Covid was a successful test of the Luciferian plan to control people with fear. It will be used again.
