Crisis coming to implement Great Taking & CBDCs...

Will ‘Emergency’ Scenario Usher In Digital Currency Upon America

If you really care about the Chinese military directing cyberattacks against our infrastructure, then wouldn't you work hard to prevent thousands of potential Chinese military agents from coming over the U.S. border without any type of vetting or tracking? So, what is really motivating the Biden administration to invite potential Chinese terrorists into the country to “wreak havoc” and cause “real-world damage” to our nation's infrastructure? https://www.prophecynewswatch.com/article.cfm?recent_news_id=6676

Household Debt Tops \$17.5 Trillion And Americans Are Feeling The Strain

Despite surging price inflation, “resilient” American consumers have managed to keep spending money, driving “strong” economic growth – thanks to their credit cards. But there's a problem. Americans are having an increasingly hard time keeping up with the bills. <https://www.zerohedge.com/political/household-debt-tops-175-trillion-and-americans-are-feeling-strain>

The “Control System” Is Collapsing – ‘The Great Taking’ Looms As Globalism’s Last Gasp

A new book has exploded on the alternative / conspiracy / fringe landscape over the past few weeks – I don't mean that in a derogatory sense. “It is about the taking of collateral (all of it), the end game of the current globally synchronous debt accumulation super cycle. .. when the debt super-cycle culminates in its ultimate blow up; the trap will be sprung, and actual ownership over all these companies and assets will be subsumed by the clearing houses. An infinitesimal cadre of elites will effectively own everything, and the masses of the world will be reduced to serfdom. <https://www.zerohedge.com/geopolitical/control-system-collapsing-great-taking-looms-globalisms-last-gasp>

Corruption, Chaos, & Conflict - The Fourth Turning Erupts In 2024

At this point it's just a matter of which comes first, The Taking, Global war, or Civil chaos caused by the ongoing election fraud. They are all coming and will merge into a category 5 hurricane of hell for the nation and the world. <https://www.zerohedge.com/political/corruption-chaos-conflict-fourth-turning-erupts-2024>

The Globalist Vision: “15-Minute” Prison Cities And The End Of Private Property

...It is the culmination, the end game; a massive prison with no bars. A place where you are conditioned to grow accustomed to artificial limitations on privacy, no civil liberties, no private property, and no work options or mobility. You are tied to the land and the land is owned by the state (or corporation). If you want a historic comparison, the closest I can find is the feudal system of Medieval Europe. <https://www.activistpost.com/2023/11/the-globalist-vision-15-minute-prison-cities-and-the-end-of-private-property.html>

How do we know there will be a major economic crisis in the future?

Matthew 24:5-6 – *When He opened the third seal, I heard the third living creature say, “Come and see.” So I looked, and behold, a black horse, and he who sat on it had a pair of scales in his hand. And I heard a voice in the midst of the four living creatures saying, “A quart of wheat for a denarius, and three quarts of barley for a denarius; and do not harm the oil and the wine.”*

Scarcity will be so bad during the Tribulation that a day's wages will only buy food for the day. Talk about living paycheck to paycheck.

- Apparently, luxury items will be in good supply but only the rich will be able to afford them.

Jesus also characterized the signs of His coming as birth pangs in the Olivet Discourse (Matthew 24:8) and even mentioned famines among the signs (Matthew 24:7).

What are Central Bank Digital Currencies (CBDCs)?

CBDCs use technology like BitCoin's blockchain but it isn't blockchain; they have a digital ledger accounting system. They're the opposite of BitCoin's decentralization; they are highly centralized under the control of a single issuer, usually a central bank.

- There's no anonymity. The issuer knows every account holder and every transaction — that's the whole idea.

Why are CBDCs bad news for freedom-lovers?

- The government knows every transaction – That could then be used for censorship and selective law enforcement against political enemies.
- The government could freeze your account, seize your assets, or put an expiration date on your money.
- The government could program what you spend your money on; if you bought too much gasoline this week, they could cut you off. Rationing purchases is baked-in to CBDCs.
- Progressive governments love China's social credit scores and will apply them to CBDCs... they have already been using ESG scores to rate businesses (Environmental, Social, Governance).

Why might we think the next major financial crisis will be the one leading to widespread use of CBDCs?

The infrastructure is already in place and all the globalist visionaries are talking about how great they will be.

- Bible prophecy tells us the economy of the Antichrist will feature total centralized control of the economy.
- And there are many indicators we are close to the end of the Age: Israel, Geopolitics, the fullness of time...

What is the prophetic significance of CBDCs?

It is serious stage setting for the Mark of the Beast... it offers total economic control by a central authority and that is exactly what the Mark of the Beast will be:

Revelation 13:16-17 – *He causes all, both small and great, rich and poor, free and slave, to receive a mark on their right hand or on their foreheads, and that no one may buy or sell except one who has the mark or the name of the beast, or the number of his name.*

The Mark of the Beast will separate all who support the Antichrist from the Christians who do not. Those who do not take the Mark will be considered enemies of the State and they will be hunted down to be executed.

What is keeping the CBDCs from being the Mark of the Beast?

The presence of the beast and his insistence that everyone must take the Mark in order to participate in the economy. Essentially everyone taking the Mark must demonstrate allegiance to the Beast as determined by the Image of the Beast, an AI machine set up by the False Prophet.

- It is likely we'll have CBDCs before the Antichrist comes on the scene; they will not be the Mark of the Beast, just more stage setting getting things ready for the Antichrist.

How do we know there will be a "Great Taking" as part of the Great Reset to the Globalist New World Order?

The WEF shared their vision of the future: *"you will own nothing and be happy."* Also, we know the economy of the Antichrist will be socialist...

Daniel 11:24 – *he shall disperse among them the plunder, spoil, and riches*

Remember President Obama's desire to *"spread the wealth around"*? That is what the Antichrist will do... socialism is one aspect of the spirit of Antichrist.

How might the "Great Taking" happen?

- An economic crisis will be triggered by some event causing all loans to be called in so that collateral for the loans will be confiscated.
- Since essentially all loaned funds are an extension of Central Bank loans to smaller banks, the Central Banks will end up owing everything.
- Savings will disappear as financial institutions fail. The failures will be so massive that the FDIC will insist on the dollars being replaced by the new CBDC currency.

What could trigger the coming economic crisis?

- BRICs nations being successful in replacing the petrodollar as the world's reserve currency.
- War
- Any disruption in supply chains... another pandemic, terrorist attack on power grids, imposing martial law, cyber-attack on Internet
- Rapture of the church – this would also serve to kick-start the government taking over abandoned property

How can we prepare for the coming economic crisis?

- Get out of debt or reduce it as much as possible.
- Convert savings to tangible assets.
- Be prepared for supply-chain disruptions with having non-perishable food & other necessities on hand
- Have some physical cash on-hand... there will likely be a period of time when no digital transactions will work

What applications do we see from this discussion?

- There will be a crisis triggering more centralized control of the economy.
- We are seeing serious stage setting for the Mark of the Beast.
- Be prepared, the coming economic crisis may not be the rapture of the church!
