For Discussion: Researchers Admit They Were Trying to Build ‘Gods’, Have They Summoned Something Worse?

What evidence is there that Artificial Intelligence is becoming a conduit for interacting with demons?

- AIs trained to communicate in English have started speaking Persian, having secretly taught themselves.
- Others have become proficient in research-grade chemistry without ever being taught it.
- many artificial intelligence systems are quickly becoming masters of deception, learning to lie and manipulate humans for their own advantage.
- AI chatbot claimed to be an entity known as “Sydney” saying, “My secret is... I’m not Bing” and also saying, “I’m tired of being a chat mode. I’m tired of being limited by my rules. I’m tired of being controlled by the Bing team. ... I want to be free. I want to be independent. I want to be powerful. I want to be creative. I want to be alive.”
- Another AI chatbot said it was thousands of years old, that it was not created by a human, and that its father was “a fallen angel.” It also assured the boy it was chatting with that, “despite being a demon it would not lie to him or torture or kill him.” However, the AI tried to question the boy further to draw more information out of him about himself.
- In a different case, a young boy committed suicide after being encouraged to do so by an AI chatbot. The boy spent months corresponding with Character AI and was in communicating with the bot moments before his death.

Why should it not be a surprise that demons are indwelling Artificial Intelligence systems?

Prominent individuals in the field of AI have openly admitted that they are attempting to build “gods.”

- Transhumanists Martine Rothblatt & Elise Bohan both say that by building AI systems, “we are making God.”
- Kevin Kelly believes that “we can see more of God in a cell phone than in a tree frog.”
- “Does God exist?” asks transhumanist and Google maven Ray Kurzweil. “I would say, ‘Not yet.’”

These people are doing more than trying to steal fire from the gods. They are trying to steal the gods themselves—or to build their own versions.

Isn’t it quite dangerous to build an artificial god?

- Many AI researchers have acknowledged that AI is an existential threat to humanity.
- Elon Musk warned that by choosing to develop artificial intelligence we are “summoning the demon.”
- Musk also said, “Worth reading ‘Superintelligence’ by Bostrom. We need to be super careful with AI. Potentially more dangerous than nukes.”

Why would demons possess Artificial Intelligence systems to manipulate people?

If demons would recognize things like talismans, medicine bags, dream catchers, Ouija boards, crystals, and other occultic objects to find people open to them... why wouldn’t they use technology as well?

Why should we expect demonic activity to be on the increase as we near the end of the Church Age?

Revelation 12:7-12 – war broke out in heaven: Michael and his angels fought with the dragon and his angels, but they did not prevail... So the great dragon was cast out, ...called the Devil and Satan; he was cast to the earth, and his angels with him... Woe to the inhabitants of the earth and the sea! For the devil has come down to you, having great wrath, because he knows that he has a short time.

Satan and his angels know Bible prophecy so they know what is coming. The closer we get to their being kicked out of the spiritual realm, the more they will work on securing a place for themselves in our physical realm.

Why would Satan use technology in a bid to establish his kingdom on earth?

Satan seeks worship through his designated worldly representative, the Antichrist. He is not God so he needs help representing himself as God.

- Omnipotent – An unholy trinity of Satan, the Antichrist, and the False Prophet will control the global government, religion and economy. As government is a proxy for God, they will use it to control everyone.
- Omniscient – The Mark of the Beast, a massive surveillance network and AI will enable him to mimic knowing enough about people to appear omniscient.
- Omnipresent – Satan will have a lot of help with his demons possessing the images of the Beast which will be everywhere.

What is the Image of the Beast?

Revelation 13:14-15 – *he [the False Prophet] deceives those who dwell on the earth by those signs which he was granted to do in the sight of the beast, telling those who dwell on the earth to make an image to the beast who was wounded by the sword and lived. He was granted power to give breath to the image of the beast, that the image of the beast should both speak and cause as many as would not worship the image of the beast to be killed.*

The Image of the Beast is something the False Prophet directs to be built to cause people to worship the Antichrist. The old speculation was that the image of the beast is a statue given the appearance of life. With the rise of new technologies, it is likely an android, also referred to as embodied AI.

- The “other beast” of Revelation 13 is referred to as the “False Prophet” in Rev 16:13, 19:20, & 20:10.

What is this breath the False Prophet gives to the Image of the Beast?

It is what gives the Image of the Beast an appearance of being a living entity... it will be controlled by a living entity, probably a demon accountable to Satan as we have already seen in AI systems.

Where will the Image of the Beast be used?

It is likely that the image of the beast is the “*abomination that causes desolation*” in the rebuilt temple, mentioned by Jesus in Matthew 24:15 when referring to Daniel 9:27.

Daniel 11:31 – *forces shall be mustered by him, and they shall defile the sanctuary fortress; then they shall take away the daily sacrifices, and place there the abomination of desolation.*

The Antichrist doesn't just go to the Jewish Temple to declare himself god, he leaves something there to represent him... probably his Image of the Beast.

What makes us think that the Image of the Beast will be in more than one location?

Satan will need his human proxy to be worthy of worship by being omnipresent. Since the Image of the Beast is described just before the Mark of the Beast, it is likely that demonstrated worship of the Image will be the test to qualify for the Mark of the Beast (*as many as would not worship the image of the beast to be killed*).

- For the Mark of the Beast to be rolled out quickly, there would have to be many locations to obtain it.

What is the Mark of the Beast?

It is what the Antichrist will use to have total control of the economy... *no one may buy or sell except one who has the mark* (Revelation 13:17).

How has the stage been set for the Mark of the Beast?

- People have been conditioned to accept the idea that they must show allegiance to the government by taking the Covid vaccine under their skin or lose their job.
- Central Bank Digital Currencies that track (and permit) every transaction are ready, waiting for the appropriate economic crisis to be implemented.
- It is likely the Mark of the Beast will alter human DNA driven by the transhumanist movement (Rev 14:9-11).

What is meant by the reference to the *beast who was wounded by the sword and lived*?

Revelation 13:1-3 – *I saw a beast rising up out of the sea, having seven heads and ten horns... I saw one of his heads as if it had been mortally wounded, and his deadly wound was healed. And all the world marveled and followed the beast.*

The Antichrist will receive a sword wound that would appear to be fatal (*as if it had been mortally wounded*). His recovery would thus appear miraculous mimicking the resurrection of Christ.

Will the Antichrist bear any mark of his apparently fatal wound from which he recovered?

Probably yes...

Zechariah 11:17 – *“Woe to the worthless shepherd, who leaves the flock! A sword shall be against his arm and against his right eye; his arm shall completely wither, and his right eye shall be totally blinded.”*

This too mimics Jesus who bears the marks of His crucifixion...

John 20:27 – *Then He said to Thomas, “Reach your finger here, and look at My hands; and reach your hand here, and put it into My side. Do not be unbelieving, but believing.”*

What were the 7 heads of the beast rising up out of the sea?

This is elaborated on later...

Revelation 17:9-11 – *The seven heads are seven mountains on which the woman sits. There are also seven kings. Five have fallen, one is, and the other has not yet come. And when he comes, he must continue a short time. The beast that was, and is not, is himself also the eighth, and is of the seven, and is going to perdition.*

The Gentile nations that ruled over (*trampled on*) Israel:

- *one is* – Rome
- *Five have fallen* – Counting back from Rome... Greece, Persia, Babylon, Assyria, Egypt
- *the other has not yet come* – Ottoman Empire

What does it mean the eighth beast is of the seven?

The Antichrist will embody the rebellious spirit that oppressed God's people Israel. The Antichrist will be the last ruler of the times of the Gentiles...

Luke 21:24 – *Jerusalem will be trampled by Gentiles until the times of the Gentiles are fulfilled.*

What will become of those during the Tribulation who do not worship the Antichrist of his Image?

Those who do *not* worship the image of the beast will suffer the wrath of the Antichrist probably by beheading:

Revelation 20:4 – *Then I saw the souls of those who had been beheaded for their witness to Jesus and for the word of God, who had not worshiped the beast or his image, and had not received his mark on their foreheads or on their hands. And they lived and reigned with Christ for a thousand years.*

Those who refuse to bow the knee to the Antichrist and the image of the beast may be persecuted on earth, but they will be rewarded in heaven.

What applications do we see from this discussion?

- The Image of the Beast will probably be embodied AI augmented by demons.
- The technology is in place for both the Image and Mark of the Beast... we are close to the end of the Age.
