### **Why do so many people want to immigrate to the USA?**

The United States is known for its prosperity and freedom. It is one place in the world where the common man can through his own efforts and creative ideas rise above those who are just working for a living.

The ZeroHedge article cited in this Deep Dive showed a bar chart of the number of new millionaires added in 2025 by country. The USA stood out as an order of magnitude greater than the next nation with 441K compared to the next highest nation, the United Kingdom at 43K...

- All of Europe which has a population about the same as the USA only had 187K millionaires added in 2025, way less than half the USA.
- American households accounted for nearly half of everyone worldwide who crossed the \$1 million threshold in 2025, underscoring the country's outsized role in global wealth creation.

### **Why is the prosperity of the USA a problem for globalists who seek control of the masses?**

Prosperity makes people and nations harder to control.

- Wealth, freedom, and technological capacity reduce dependence on centralized, global authorities
- Efforts to impose uniform systems (economic, political, or surveillance-based) are more difficult to enforce... people can just refuse to participate.

### **Why is the prosperity of the USA a problem for the elite selling their globalist vision to the masses?**

A prosperous, relatively free America provides an attractive alternative to the globalist vision of one-world governance.

- That attractiveness undermines the narrative that world government is necessary for stability or prosperity.

### **How does prosperity of the USA represent a problem for the spiritual and moral reform of the globalists?**

Prosperity can blunt urgency for any spiritual and moral reform.

- Prosperous citizens are less likely to see their need to adopt government priorities.

### **Why are there are so many efforts under way to fundamentally change the prosperity of the USA?**

- Divine discipline – when a nation becomes godless, God's providence can allow prosperity to be removed as a form of warning or discipline.
- Globalist vision – Globalists seek to reshape economic structures to reduce national autonomy and increase dependence on international systems.
- Societal decline – Moral and cultural consequences produce economic vulnerability.
- Prophetic stage-setting – Technological advances and geopolitical realignments are fulfilling patterns described in Scripture's end-times revelations.

### **How is the rest of Western Civilization faring in dealing with decline?**

The native culture and people of Europe is being replaced by non-Western Islamists.

### **How does the virtual invasion of Europe by third world aliens endanger American security?**

The transformation there is essentially a test case for a strategy to undermine the USA as well.

- It has been so successful in Europe that the same strategy is well underway in the USA.

### **How has unfettered immigration transformed Europe?**

There is a stark prospect of civilizational erasure in Europe due to migration policies that are creating strife, censorship of free speech and suppression of political opposition, cratering birthrates, and loss of national identities and self-confidence.

- The conclusion of the US National Security Strategy is: “it is far from obvious whether certain European countries will have economies and militaries strong enough to remain reliable allies.”

### **How does the loss of allies due to the failure of Western Civilization in Europe threaten the USA?**

Instead of Europe’s traditional role supporting Western Civilization, the massive demographic and cultural changes are slowly making it an adversary to the West.

### **Why are European nations even doubling down on their present path of unfettered immigration?**

It has to be the influence of the secular globalist elite.

- If we are to have a global government, there can be no borders between nations.
- The excuse is: with birth rates going down, people need to be brought in to sustain growth. But the real agenda is...
- Third-world immigration serves the purpose of creating chaos that increases demand for a strong central government to control the unruly masses.

### **Why should Western Civilization be preserved?**

Christianity brought Europe the idea that humans have inherent dignity rooted in their common relationship with God and that people flourish when they have freedom.

- Though Western Civilization was influenced by the secularism of the Enlightenment, the Christian values of freedom and individual rights remained the mainstay.

### **What biblical principle do we see at work here in allowing unfettered immigration?**

Deuteronomy 28:43-45 – *The alien who is among you shall rise higher and higher above you, and you shall come down lower and lower. He shall lend to you, but you shall not lend to him; he shall be the head, and you shall be the tail. Moreover all these curses shall come upon you and pursue and overtake you, until you are destroyed, because you did not obey the voice of the Lord your God, to keep His commandments and His statutes which He commanded you.*

While this passage is directed to Israel warning them of a consequence for turning from God, the principle applies to those nations most representing Him on the Earth...

Western Civilization and the USA.

- God allows immigration to discipline nations.

- If people want to reverse the order God established following the Tower of Babel, He will let them experience the consequences.

### **What dynamic is at work here from a prophetic perspective?**

It is pretty obvious we are seeing the Revived Roman Empire being infiltrated with the Revived Ottoman Empire...

Daniel 2:41-43 – *Whereas you saw the feet and toes, partly of potter’s clay and partly of iron, the kingdom shall be divided; yet the strength of the iron shall be in it... so the kingdom shall be partly strong and partly fragile. As you saw iron mixed with ceramic clay... they will not adhere to one another, just as iron does not mix with clay*

The iron represents the continuation of the Roman Empire, the clay represents the Islamic world that ruled over Israel during the time of the Ottoman Empire.

### **Where do we see the USA in Bible prophecy?**

Not very prominently which tells us something about the fate of USA no longer being a super power.

- Perhaps among the young lions of Ezekiel 38:13 who protest about the threat to Israel but then does nothing to help.
- Likely part of Mystery Babylon, just one nation on the collective global community of nations.

### **What could cause the USA to lose its super power status in the world?**

War, a real pandemic, society melt-down, and/or Rapture.

- It is unlikely that a weakening from unfettered immigration will have time to work in the USA given the advanced state of stage-setting in the world (though that will not keep the globalists from trying).

### **What should be the response of Christians in America as we see our nation in decline?**

Remember that God remains sovereign over nations and history. Prophecy and biblical teaching are given to help believers understand why these things happen...

- To call us to repentance and godly living
- To comfort us with the assurance that God is ultimately in control and that Christ will establish a righteous kingdom.

### **What applications do we see from our discussion today?**

- The USA must yield sovereignty to the global community of nations.
- The advanced stage of Islamification of Western Civilization reveals the stage is set for the government of the Antichrist described in Daniel.
