

## Lynott

Unisex Zyl

Colors: Black, Rust

EYE	DBL	TEMPLE
50	19	140mm

While “contemporary retro” may seem like an oxymoron, take a look at the new **Alexander Julian Lynott** and see if it isn’t an accurate description. **The rich colored zyl front gives way to tasteful spring hinge metal temples.** This design will appeal to both men and women, younger and more mature.

## Manet

Men’s Zyl

Colors: Biscotti, Blue Grey

EYE	DBL	TEMPLE
53	17	140mm

“Move over top-selling men’s zyl on your board, the **Manet** is coming!” **This classic men’s design fits nearly every face shape** flawlessly. Two updated men’s colors of **Biscotti and Blue Grey** will present your male patients with the question of which color to chose. The answer: don’t chose, get them both!

## Ogdon

Men’s Metal

Colors: Black, Brown

EYE	DBL	TEMPLE
53	20	140mm

Visit most high-end optical boutiques and you will see styles similar to the **Alexander Julian Ogdon**, selling for more than \$400.00. Our style is made of **super thin, super durable stainless steel**. Our coloration process, which provides the **rich black and brown colors**, is second to none and then **sprayed with a warm silicon coating to prevent allergic reactions**. Add **two-toned spring hinge temples** and a suggested retail price point less than half of what the boutiques charge and well... I’d buy two kits!
