Alfven

Men's Zyl
Colors: Black, Tortoise

EYE	DBL	TEMPLE
51	20	145mm

An upgraded "Geek Chic" design for the man who wants a statement pair of eyewear. Most are surprised that the eye size of the **Alfven** is a 51, but with extended end pieces and a thick brow bar, this design is ideal for the small man looking for a big pair of shades.

Franck

Unisex Metal
Colors: Black, Brown

EYE	DBL	TEMPLE
53	17	140mm

We are guessing that you have nothing like the **Franck** on your board. The shape looks too aggressive for most patients, but try it on, and you will find a very flattering frame for most men and women. You may need to take this frame off the board to show your patients. You will be glad you did.

Glass

Unisex Metal
Colors: Gold/Brown, Grey

EYE	DBL	TEMPLE
49	20	145mm

A unisex metal style in a modified round/John Lennon look. Take note that the **Glass** is deep enough for full progressive lenses and big enough to comfortably fit most men and women's faces. Thin, tasteful temple treatments are a subtle homage to similar looks from the early 1900's.

Hornsby

Men's Zyl
Colors: Brown, Grey

EYE	DBL	TEMPLE
54	18	140mm

A super thin, lightweight design with an acetate front and metal spring hinged temples. Both colors, **Brown** and **Grey**, fade out a bit from top to bottom. The extremely favorable rectangle shape will fit the majority of men's (or women's) face shape.
