Re: Atlanta Falcons Training Camp Reconstruction and Additions

Dear Tony:

I welcome the opportunity to express to you my gratitude and satisfaction of your performance in the construction of Atlanta Falcons Training Camp Reconstruction and Additions. Although no one will ever see the attention to details at complexity of the process you did to provide the finished product you installed, as is it is over looked with the enormity of the entire scope of work at the Falcons Facility, there certainly wouldn't be the appreciation of the fields that is there if you hadn't done what you did so well. It is clear to me that you are an expert in your field, constantly sharing your knowledge and experience to deliver the highest quality product to Hardin Construction and the Owner on not only your specific scope of work but also the project in general. The site and other unique elements to this project posed numerous difficulties, all of which you approached with a positive attitude and practical thinking. When time and scheduling constraints were tight, you stepped up and accepted the challenge. It is a pleasure to partner up with a like-minded professional that strives for quality and customer satisfaction.

I hope that this project was able to expand your already vast knowledge of the athletic field industry and lead to future opportunities. Please feel free to use me as a reference, as I can attest to the exceptional ability of Athletic Construction, Inc.

Sincerely,

Hardin Construction Company Inc

Re: Atlanta Silverbacks Park, Phase I

Dear Tony:

I welcome the opportunity to express to you and any of your potential clients my gratitude and satisfaction of your performance in the construction of Atlanta Silverbacks Park, Phase I. Although no one will ever see the product you installed, as is it is covered by a sea of artificial turf, there certainly wouldn't be the appreciation of the fields that there is if you hadn't done what you did. It is clear to me that you are an expert in your field, constantly sharing your knowledge and experience to deliver a quality product to the Owner on not only your specific scope of work but also the project in general. The site and other unique elements to this project posed numerous difficulties, all of which you approached with a positive attitude and practical thinking. When time and scheduling constraints were tight, you stepped up and accepted the challenge. It is a pleasure to partner up with a like-minded professional that strives for quality and customer satisfaction.

I hope that this project was able to expand your already vast knowledge of the athletic field industry and lead to future opportunities. Please feel free to use me as a reference, as I can attest to the exceptional ability of Athletic Construction, Inc.

Sincerely,

CHOATE CONSTRUCTION COMPANY
