Mr. Tony Strickland
Athletic Construction, Inc.
3744 Turkwood Dr.
Oakwood, Ga. 30566

Tony,

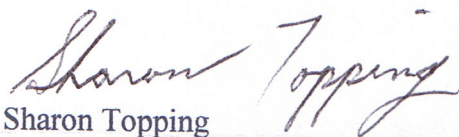

I just wanted to let you know how happy we are with the soccer field that you renovated at our Dunwoody campus. Everyone from the coach and players to the men who mow the grass are truly pleased with the finished product.

The field drains so well they can play within a couple of hours of a rain. And, as you had to keep reassuring me, as soon as the root system developed and filled in, the field firmed up and is very sturdy and durable.

Please know that my experience in working with you on this project was a good one. Your expertise in your field is unquestionable, and, I find you to be a man your word. And that is what really matters.

I certainly hope that we get a chance to use your services on other projects in the future. And please feel free to use me and the college as a reference if that need ever comes up for you.

Take care,

Sharon Topping
Grounds Superintendent
Georgia Perimeter College

Re: Clark Atlanta University 1996 Olympic Field Replacement

Dear Tony:

My extreme gratitude and satisfaction of your performance in the re-construction of Clark Atlanta University 1996 Olympic Field Replacement is the best I can offer. No other company (and there were some big companies) providing us with a proposal has shown the expert knowledge and dedication to quality for our new field, there certainly wouldn't be the appreciation of the field that is now there if you hadn't done what you did. It is clear to me that you are an expert in your field with a strong passion for what you do by constantly sharing your knowledge and experience to deliver a quality product to the Owner on not only your specific scope of work but also the project in general. The site and other unique elements to this project posed numerous difficulties, all of which you approached with a positive attitude and practical thinking. When time and scheduling constraints were tight, you stepped up and accepted the challenge. It is a pleasure to partner up with a like-minded professional that strives for quality and customer satisfaction.

I hope that this project was able to expand your already vast knowledge of the athletic field industry and lead to future opportunities. Please feel free to use me as a reference, as I can attest to the exceptional ability of Athletic Construction, Inc.

Sincerely,

Coach Ted Bahhur
Head Football Coach, Stadium & Stadium Project Manager
Clark Atlanta University

To whom it may concern,

The purpose of this letter is to attest to the work Mr. Tony Strickland completed at Young Harris College and my recommendation to any organization that needs sports facility construction and/or improvements.

Mr. Strickland worked on numerous projects at Young Harris College. He constructed our women's soccer field and fast pitch softball field. He also worked on the renovation of our men's soccer field. His knowledge and dedication to detail and quality was the bases of our recommendation that he do the work on our men's soccer field. Throughout the projects Mr. Strickland always took the time to communicate with me on the status of the construction. We at Young Harris College are very pleased with the work that Mr. Strickland completed.

I am currently the Chairman of the Social and Behavioral Studies Division here at Young Harris College and have been here at Young Harris for over 28 years. Eighteen years of that time I served as the Director of Athletics as well as softball coach. I have seen many of our opponent's reaction when they come to our campus to play. Our fields are the envy of many. I can only thank Mr. Strickland for the fine construction and the information he always shared with us concerning upkeep and continued development of the areas.

I recommend Tony Strickland without any reservations for any athletic field improvements and/or construction. Please feel free to contact me if I can provide any additional information.

Sincerely,

Dr. John M. Kniess, Chair
Social and Behavioral Studies
Young Harris College
