

## 1 Resilient Custom Case Containing Instruments and Alignment Hardware

### Case Contains:

- 4 Bluetooth CCD Measuring Sensor Heads
- Rugged Designed Tablet with Windows 10 software
- Premium Alignment Software
- 4 Wired sensor head charging cables
- 4 Heavy Duty Touchless Wheel Clamps
- Calibration Plates on Lid of Case

### Other Items in the Package:

- Set of Superlight Alloy Turning Plates
- Calibration Device
- Trailer Alignment Fixture
- Steering Wheel Holder and Brake Depressor
- Teq-Link app integrated into the tablet for wheel aligners to manage and export the customer tests independently from the aligner. The app also creates productivity and work flow reports as a management tool.
