WHAT'S IN YOUR WHEEL HOUSE WHEN THE SKY IS GRAY

BY LULA WESTBROOK

IMAGINE A BLUEBERRY FACE

There as an old lady who lived in a stew. She had so many accounts she didn't know what to do. Behind her back she was navy. Some called her blueberry. A few years ago ago might not seem like a long time, in human years, but it can show a lot of wear and tare, Take for instance the watch. In the 1960s who hadn't heard of the "Dick Tracy," watch. Today the watch has been updated by technology. and labelled the brand watch , like Apple and other versions. The watch has moved from imagination to imagine. Which just happens to be a theorem for the imagination. Just imagine a narrative where the protagonist walks, and keeps on walking, and walking, walking, without any quality of care QOC , mile after miles. The story can't really get into gear until something happens to the stride characterisation, like a twist or a turn or a, C U LATER. Remember even with repetitious walking something happens even if it's as mediocre as a a blueberry face. Should you forget the example, think of "Rip Van Wirsensorcel," Does the narrative take off once old Rip's asleep,? Of course not, it's the movement, moment or backstory once he's awaken. Things really get moving once Rip washed his face and eats his first spoonful of blueberry. face cereal. Imagine that!! Your first bowl of blueberry face cereal after being asleep for twenty years. There's a fat one thousand dollar word for this. that's creatively called. " a word to the wise." Which most people know is, "sufficient." Sufficient , is how "C U Later" got started. Although at the time "Sleepy Head Rip, was out of view some place snoring.. iSmall boxes of Blueberry. cereal was finding its way from peoples mailboxes to the family breakfast table. A single teaspoonful of cereal would turn a person's face blue. Mary's face was blue, but was it the cereal?

WHEEL HOUSE

CHAPTER 1.

LIBERATED GIRL TKO

Liberated at a seance. She began seeing ghosts! It wasn't long before she began working for someone whose unfair and crooked. You could hear her worthiness in almost every other spoken word she uttered from her mouth.

With pride in her positioned walk, this liberated girl knew who she was. There's a verse in the unsung hero's motto. that let her know she was pimple free. There was a little shine in her makeup. Her museum fish lips offset a lot in what ever she was lacking About those busybody lips that seemed to be all over the place saying look at me ma ma or saying absolutely nothing.. She had perky breasts, ummm correction. She had one perky for sure breast that might have made up for a few things on her body that appeared off kilter. Now what really sets her apart from the crowd was her bubblicy butt, for heaven sakes." Don't even go there, and don't act like you don't know how to spell bubblicy or what it is?

Bubblicy can be explained to open/minded adults. Everyone else can just think back to an old TV show called, Sex-In-The, Definitely! Whew, we all had faith in you. Didn't think you'd guess it, but you did. We couldn't come eye to eye, but we definitely came mind to mind. Still paintings surround her. Ordinarily "C U Later", would be her wheel house. Ravished with ponzi schemes, this beautiful liberated girl just received a technical knock out, a TKO where she works.

BELA THE MAGIC MUSHROOM TRANSYLVANIAN WOMAN

Everyone at the, “Blueberry Cereal Company,” suddenly can see their boss for what she really is, a modern day vampirina. Transylvania women are richer than the lovely blue Countess Vampirina. Our not so blue Bela, from a distance might have been fooled once, but not twice. Vampire history doesn’t really explain Transylvanian women, but liberated girl obviously drenched in the Lugosi clan have the wherewithal of Lovecraft, assuming you know something about Lovecraft.i

Out pathetic Bela wouldn’t hesitate to rob a grave for the gold tooth of a corpse. Outsiders look up to watch and listen for the cringing morbid sound of bats flying inside or away from the bell tower. The lowest web winged bats know of the evil found in vampirina’s magic mushrooms. Outsiders watch the silhouette of Bela as she leans in with her wretchedness to kiss Vampirina. Afraid, you ask? Why should she be afraid? She wants Vampirina’s power to go into someone’s account and theft vitals. Bela’s power allows her to finger bank accounts without permission.. “Curious to know why you were really turned down for that loan?” Bela asks? As a he fumbles through other peoples accounts. Power knows who you pay, and who you owe. While you foolishly think you and the person you love are the only two people with access to your account. Huh! Not so. Vampirina asks? “Who do you want in office?” Unlike the grave robber Bella can work anytime, anywhere night or day. with their hands on your gold bullion.”Bela can take your money out and use it for another purpose. Her magic mushrooms will sustain her for a short while. Vampirina on the other hand isn’t as smart as she once was. Her face is decaying . She’s as brittle as the grave opening wider and wider, awaiting her to fall in. Someone asked, “whom should we fear most, Bela or the Countess Vampirina? Witches are so mundane these days.”
